IMPORTANT

Before operating your Lights.com floor lamp, please make sure that you carefully read through these instruction sheets.

NOTE: The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. This approach must be used by the person(s) caring for and operating the fixture.

GENERAL INFORMATION

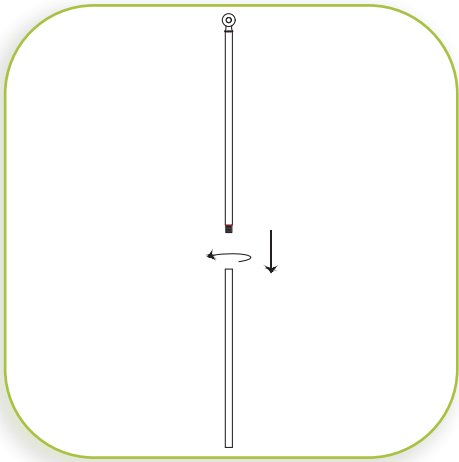

All electrical connections must be made in accordance with all ordinances, and local and national electrical codes.

1

UNPACK YOUR FIXTURE

INSTRUCTIONS

2

INSTALL LAMP RODS

Warning: Do not cross thread the rods or force them together. This will cause damage to the threading.

Connect the rods one by one starting from the top of the lamp.

3

INSTALL LAMP BASE

Connect the bottom rod onto the base while removing slack from the lamp cord. The slack in the cord should first be pulled down from the bottom of the base. Then the slack in the cord should be pulled out the side of the base. When threading the rod onto the base, be careful not to over tighten.

NOTE: Before securing the base to the lamp body, make sure all rods are connected tightly.

4

CONNECT PIVOTING ARM

Carefully tuck the wires above the joint hole, making sure the wires are not pinched within the joint. Connect the pivoting joint at the ends of lamp arm and secure using the adjustment key.

INSTRUCTIONS

5

INSTALL BALANCE ARM

Install balance arm onto the pivoting joint. Do not over tighten.

6

INSTALL SHADE AND BULB

Remove the socket ring from the socket. Hold the glass shade up to the socket and secure with the socket ring.

Install the bulb. **MAXIMUM WATTAGE 60W.**

DO NOT EXCEED THE WATTAGE AS STATED ON THE WARNING LABEL.

7

PLUG IN LAMP

Plug in the On/Off switch into an outlet.
