

IMPORTANT

Before installing your Lights.com fixture, please make sure that you carefully read through these instruction sheets. Consider having your fixture installed by a qualified licensed electrician.

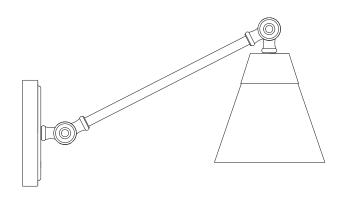

NOTE: The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. This approach must be used by the person(s) caring for and operating the fixture.

All electrical connections must be made in accordance with all ordinances, and local and national electrical codes. These fixtures are intended for mounting to a standard 4" junction box. The box must be directly supported by the building structure and be ETL or U.L. Recognized.

STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

Application

Wall Sconce

LC005153 LC005154 LC005155

Model No.

WHAT WE PROVIDE

- Mounting & Wiring Hardware
- Glass Shade
- Pivoting Single Arm Wall Sconce

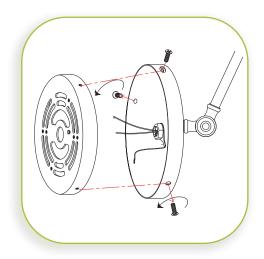

WHAT YOU NEED

- Phillips Screwdriver
- Wire Cutters
- Pliers
- Wiring Supplies As Specified By Electrical Code
- 1 X 60w E26 Bulb

UNPACK YOUR FIXTURE

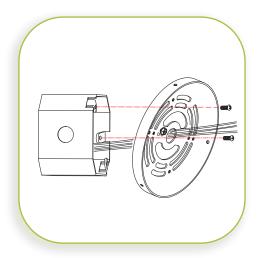

Carefully set aside all parts and pieces.

2

PREPARE FIXTURE AND MOUNTING PLATE

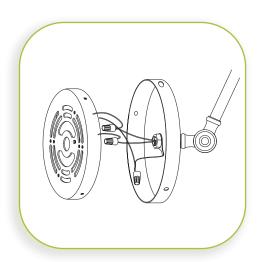

Remove the mounting plate by unscrewing the side screws from the backplate.

3

INSTALL THE MOUNTING PLATE

If there is an existing fixture, remove it. Expose the supply wires from the junction box. Insert supply wires through the mounting plate. Secure mounting plate using two Phillips head screws provided. Tighten to secure.

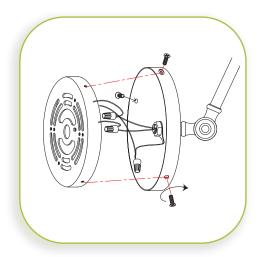

4

CONNECT WIRES

Connect the BLACK fixture wire to the BLACK supply wire and the WHITE fixture wire to the WHITE supply wire.

Connect the fixture GROUND wire to the junction box GROUND wire.

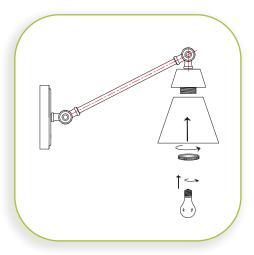

Secure all connections with the supplied wire nuts.

5

CONNECT FIXTURE TO WALL

Place backplate over mounting plate. Slightly adjust to align holes on each side. Secure using supplied screws.

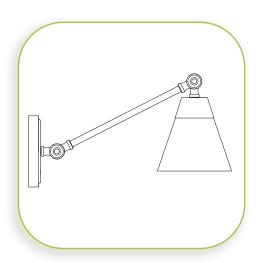

6

INSTALL SHADE AND BULB

Remove the socket ring from the socket. Hold the glass shade up to the socket and secure with the socket ring. Install the bulb.

MAXIMUM WATTAGE 60W.

RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW FIXTURE

DIMMER NOTE

Note: For the best lighting experience, we recommend using a dimmer. Not only does this allow you to create a great ambiance, it allows for energy savings and extends the life of the bulb.
