

IMPORTANT

Before installing your Lights.com fixture, please make sure that you carefully read through these instruction sheets. Consider having your fixture installed by a qualified licensed electrician.

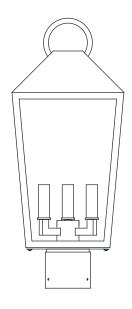

NOTE: The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. This approach must be used by the person(s) caring for and operating the fixture.

All electrical connections must be made in accordance with all ordinances, and Local and National Electrical Codes. These fixtures are intended for mounting to a standard 4" junction box. The box must be directly supported by the building structure and be ETL or U.L. Recognized.

STEP BY STEP INSTRUCTIONS

Before starting your installation, disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

WHAT WE PROVIDE

- Wall Light
- Mounting & Wiring Hardware
- 4 Glass Panels

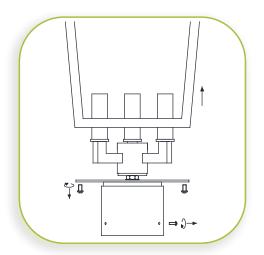

WHAT YOU NEED

- Phillips head Screwdriver
- Wire Cutters
- Wiring Supplies as Specified by Electrical Code
- Electrical Tape
- 3 x 60W Max E12 Bulbs

UNPACK YOUR FIXTURE

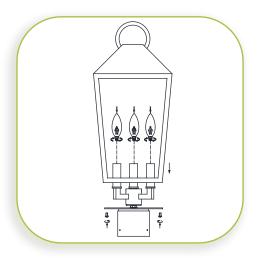

Carefully set aside all parts and pieces.

2

PREPARE FIXTURE

Remove the cage by unscrewing the screws on the bottom base.

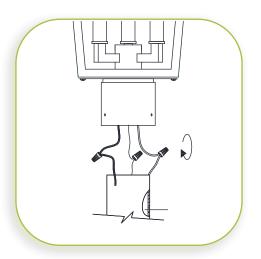

3

INSTALL BULB AND CAGE

Install your E12 bulbs to the base. Then re-attach the cage to the base with the screws to secure.

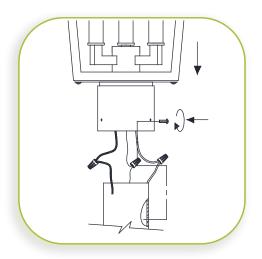

MAXIMUM WATTAGE 60W. DO NOT EXCEED THE WATTAGE AS STATED ON THE WARNING LABEL.

4

MAKE WIRE CONNECTIONS

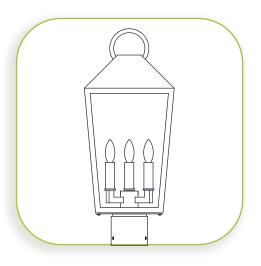

Connect the BLACK fixture wire to the BLACK supply wire and connect the WHITE fixture wire to the WHITE supply wire. Connect the fixture GROUND wire to the J-Box GROUND wire, or wrap around one of the protruding screws on the mounting plate. Secure all connections with the supplied wire nuts and electrical tape (not supplied).

5

ATTACH TO POST OR BASE

Secure the fixture to the post or base with the supplied screws.

6

RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW FIXTURE

DIMMER NOTE

For the best lighting experience, we recommend using a dimmer. Not only does this allow you to create a great ambiance, it allows for energy savings and extends the life of the bulbs.
